Professional Summary

Passionate and detail-oriented **Java Software Developer** with hands-on internship experience in **Core Java, J2EE, SQL, and Full Stack Development.** Skilled in designing, coding, testing, and deploying scalable applications. Strong knowledge of **Software Development Life Cycle (SDLC), problem-solving**, and **object-oriented programming (OOPs)** principles. Adept at working in collaborative environments with effective communication and logical thinking.

IT Proficiency

I have undergone **Java Full Stack Training** in **Qspider Chrompet**

Technical Skills

Languages: Java, J2EE, HTML, CSS
ORM & Database: Hibernate, MySQL, Oracle SQL+
Tools: GitHub, Eclipse, Git, VS Code
Concepts: OOPs Concepts, Collections, Exception Handling, Multithreading, SDLC
Soft Skills: Problem-Solving, Logical Thinking, Communication

Education

B.E – Computer Science and Engineering — CGPA: 7.89   **2021 - 2025**
St. Michael College of Engineering and Technology   *Kalayarkoil, Tamil Nadu*

Higher Secondary — Percentage: 83.8   **2019 - 2021**
Alangara Matha Hr. Sec. School   *Paramakudi, Tamil Nadu*

Internships

Front-End Developer Intern | *WebGapp Website Designers*   **August 2024**
- Developed and optimized **responsive, cross-browser websites** using **HTML, CSS** improving **UI/UX performance.**
- Collaborated with designers and backend developers to ensure **seamless integration of APIs** and **dynamic content rendering.**
- Applied **version control (GitHub)** to track changes and manage collaborative development effectively.

Full Stack Developer Intern | *Futurik Technologies*   **July 2023**
- Built **end-to-end web applications** by integrating **frontend (HTML, CSS)** with **backend (Java, JDBC, MySQL).**
- Designed and tested **REST APIs** for smooth communication between **frontend and backend systems**.
- Strengthened knowledge of **Java frameworks (Hibernate)** applied them in **real-world projects**.
- Worked in an **Agile development environment**, participated in **code reviews, debugging, and SDLC processes** to deliver high-quality applications.

Projects

Job Search Portal | *Java, J2EE, Hibernate, HTML, CSS, MySQL*

* Developed a full-stack **Job Search Portal** enabling recruiters to post jobs and candidates to apply seamlessly.
* Implemented **Hibernate ORM** for efficient data persistence and retrieval.
* Built a secure authentication and authorization module using **J2EE and Servlets**.
* Enhanced user experience with an intuitive **front-end interface (HTML, CSS)** and optimized database queries in **MySQL**.

Placement Management System | *Java, J2EE, MySQL*

* Developed a Placement Management System using Java, J2EE and MySQL to automate and streamline the complete campus placement workflow.
* Centralized student profiles, eligibility data, and company requirements for efficient management and quick access.
* Enabled placement coordinators to track student progress, schedule interviews, and generate reports through a simplified and automated process.
